

## Prop 65 Compliance: A Public Health Perspective

Caroline Cox  
September, 2018

# “Proposition 65” – in brief

---

- The law requires warnings on products that expose consumers and the public to significant amounts of toxic chemicals

# Our shared goal: public health

- What is the health-protective way to comply with Prop 65?
- Remove toxic chemicals from the products that Californians buy and use every day

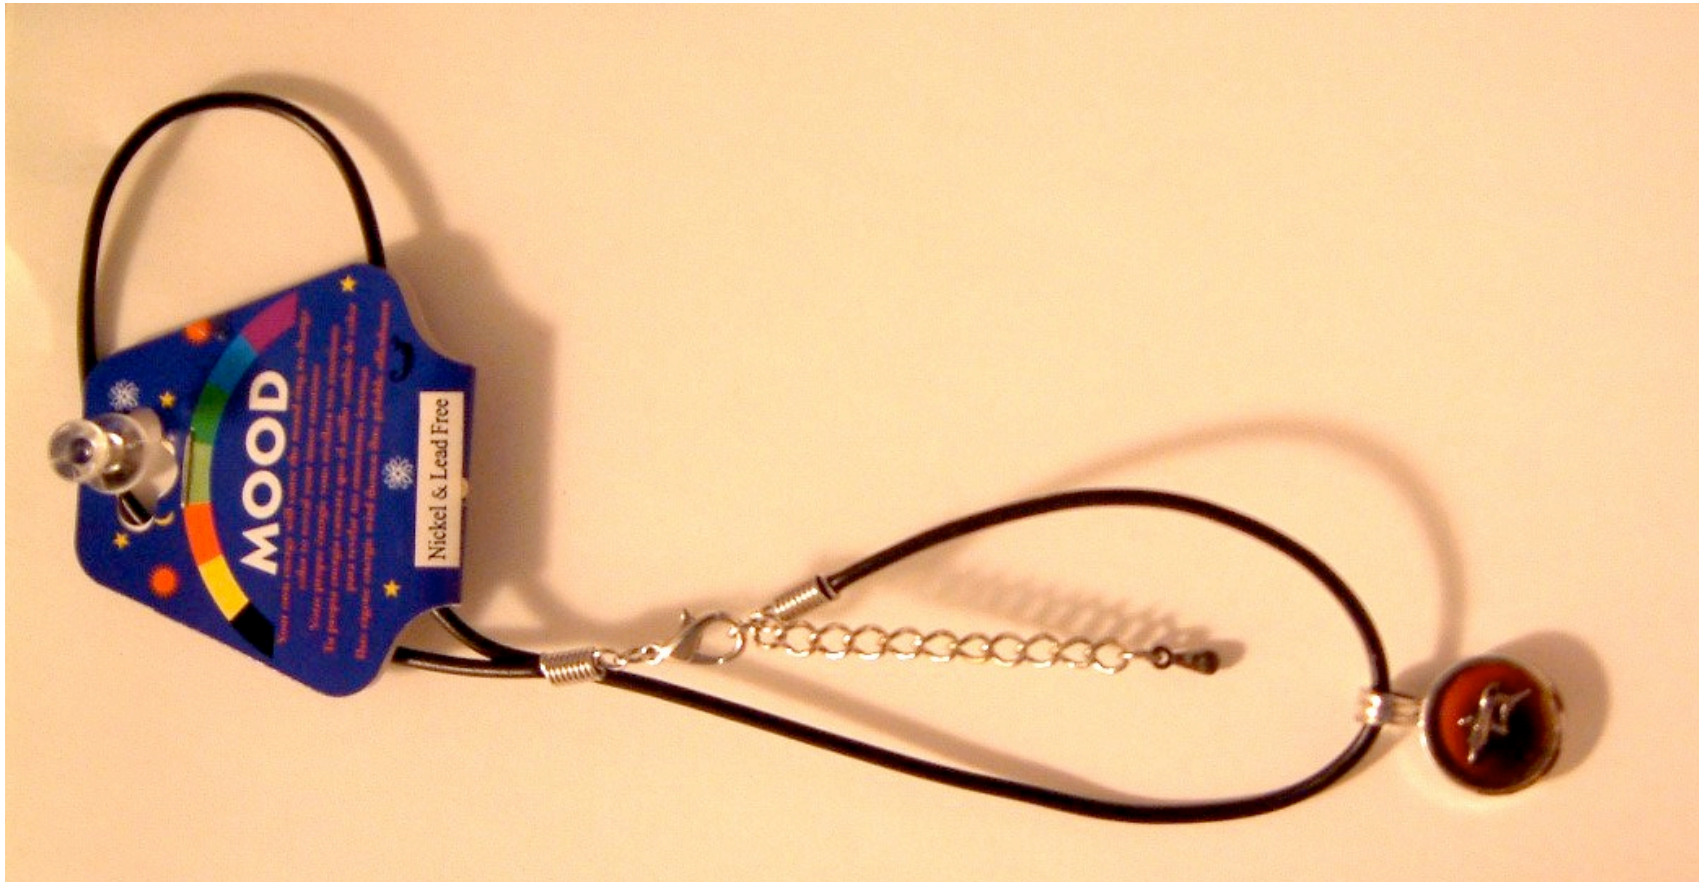

# Arsenic removed from play structures

# Hazardous lead removed from jewelry

# End to use of lead wheel-balancing weights

# Hazardous lead removed from toys

# Hazardous lead removed from fashion accessories

# Reduction of 4-methylimidazole in soft drinks

# Elimination of cocamide DEA in shampoos and soaps

## Elimination of chlorinated Tris and other flame retardants from baby products

# Elimination of BPA-containing water bottles

# Reduction of acrylamide in veggie crisps

A close-up photograph of a young boy with dark skin and short hair, wearing an orange and black striped shirt. He is peeking over a field of tall green grass, with only his eyes, nose, and mouth visible above the blades. The background is a soft-focus green field.

**The public health approach to  
complying with Proposition 65 has  
effectively reduced the exposure of  
Californians to toxic chemicals.**
